## Work Experience

### IT Support Specialist

May 2025 - Present

*Panago Pizza Inc.*

- Provide end-to-end IT support for Head Office, Call Centres, and **200+ franchise** locations, ensuring high availability of **business-critical systems** while troubleshooting hardware, software, POS, network, and Microsoft 365 issues.
- Administer Microsoft 365, Microsoft Entra ID, Active Directory, and Exchange Online, managing user onboarding/offboarding, **account provisioning, security groups, mailbox administration, licensing, authentication (MFA)**, and access permissions.
- **Deploy, configure, and support** Windows workstations, POS systems, printers, and network infrastructure for new store openings, sales, renovations, relocations, and closures, including **Fortinet (FortiGate) firewalls**, FortiExtenders, DHCP, IP addressing, VPN, and network connectivity.
- Provide Tier 2 support for 200+ Call Centre agents, troubleshooting Webex Contact Center, telephony, proprietary POS software, and other business-critical applications while **maintaining SLA targets.**
- **Designed and developed** an internal **web-based Store Mapping Tool** for the Panago Call Centre, streamlining store lookup and mapping workflows, reducing manual effort, and **improving operational efficiency.**
- Lead and support **IT infrastructure projects** including Windows 10 to Windows 11 migrations across Head Office and retail locations, phone system upgrades, office technology deployments, and store infrastructure implementations.

- **Collaborate with vendors**, ISPs, and cross-functional teams to coordinate technology deployments, **resolve escalated technical and billing issues**, and support infrastructure upgrades while **maintaining technical documentation** and asset records..

## IT Technician

March 2025 - May 2025

*Nanak Foods Inc.*

- Provide end-user technical support for hardware, software, and network issues, ensuring system reliability and smooth daily operations across departments.
- Install, configure, and maintain **Windows-based systems**, peripherals, and user accounts while monitoring performance and applying system updates.
- Manage and resolve tickets through **ServiceNow/Remedy**, documenting troubleshooting steps to streamline future issue resolution.
- Assist with **LAN connectivity**, firewall configurations, and basic network security, collaborating with senior technicians on infrastructure maintenance.
- Deliver responsive, customer-focused IT assistance while maintaining documentation and supporting continuous process improvements.

## IT Infrastructure Support Analyst

January 2023 - April 2024

*Canada Revenue Agency (National IT Service Desk)*

- Provided Tier 1/2 end-user **IT support** via phone, chat, and web for **CRA and CBSA** users, ensuring timely resolution of hardware, software, and network issues.
- Diagnosed and resolved issues with Microsoft 365, Adobe applications, Windows OS, VPN, and network connectivity; performed **remote software installations and configurations**.
- **Administered Active Directory and Microsoft Exchange 2016**, managing user accounts, group permissions, mailbox access, and site transfers.
- Collaborated with internal teams and vendors to troubleshoot escalated incidents, meet SLA requirements, and document solutions.
- **Created SharePoint knowledge articles** and troubleshooting guides, **reducing repeat tickets by 10%** and improving self-service support.

---
